aw2.client

We can use aw2.client for writing style and script.

Writing script as:

```
[aw2.client script]
<!--Your script goes here -->
[/aw2.client]
```

Writing Style as:

```
[aw2.client style]
// your style goes here...
[/aw2.client]
```

```
[aw2.client less]
// your less goes here...
[/aw2.client]
```
