# aw2.loop

**Loop Object. Within a loop you have access to the loop object**
**————————————-**
**[aw2.get loop.<selector>]**

**loop.index**
**The Current Index**

**loop.counter**
**Zero based counter**

**loop.odd**
**returns 0 or 1**

**loop.even**
**returns 0 or 1**

**loop.first**
**returns 0 or 1**

**loop.last**
**returns 0 or 1**

**loop.between**
**returns 0 or 1**

**loop.series.2**
**returns 0 or 1 for the series 1,3,5,7**

**loop.key**
**The Current Key**

**loop.value**
**The Current Value**

**loop.source**
**The original array which you are looping through**

```
[aw2.loop module.x]
//** get Current Index **//
[aw2.get loop.index /]

//*** Zero based counter ***//
[aw2.get loop.counter /]

//***Odd Even First Last Between***//
[aw2.true loop.odd]Odd[/aw2.true]
[aw2.true loop.even]even[/aw2.true]
[aw2.true loop.first]First[/aw2.true]
[aw2.true loop.last]Last[/aw2.true]
[aw2.true loop.between]Between[/aw2.true]

//*** loop key ***//
[aw2.get loop.key /]

[/aw2.loop]
```
